Cover Letter

I'm a front-end developer.

I started as a self-taught person and now I'm strengthening my knowledge in a Full-Stack MERN course.

I value the good work environment and daily learning. I learn new technologies to improve my skills every day and adapt to changes.

I aspire to work in a company where I can expand my knowledge and constantly evolve.

Experience

Personal Projects

•Portfolio:

I created it with React.js using `il8n`, `react-router-dom`, `framer-motion`, `react-icons`, `Tailwind` and `Getform`. Implementation of `useStyles` and componentization for cleaner and neater code.

• Climate App:

This weather app shows the implementation of the `openweathermap` API call with `axios`. Look for the weather according to the location you want. It was created with `Reactjs` and `css`."

• Movie App:

Shows the `TMDB` API call implementation. It contains a search, an animated button, and the covers open a modal window with the reviews of your choice. The Home redirects to the main search screen. `Bootstrap` and `css` were used.

• To-do list:

It is a project based on a `CRUD`. Built with `React.js`, `redux-toolkit`, `react-router-dom` and `Tailwind`.

•CRUD:

(Create, Read, Update, Delete) This project was created with `React.js`, implementing `redux-toolkit`, `react-router-dom` and `Tailwind`

Collaborations

• E-commerce:

Participation in a full-stack project. An e-commerce website for a clothing store in Mar del Plata. `Next.js`.

• Participation in a sports app using:

`React.js` . `Redux`, `react hooks`, `css`, `sass`, `react router dom`, `il8n`, `bootstrap`, `tailwind`, `postman`, `axios`, methodology `BEM`, `git`, `github`, `trelo` and `scrum`.

Design copy from `Figma` templates required for each view.

I also implemented `useStyles` and componentized for cleaner, neater code.
